Reading Adventures Disney Princess Level 1 Boxed Set

Synopsis

Disney Reading Adventures is a curriculum-based, leveled reading program that offers children the support and guidance they need as they progress on the reading continuum from emergent readers to independent readers who read for meaning. Thoughtfully crafted and engaging stories contain key features that develop children's reading comprehension and vocabulary skills. The stories are highly predictable with repetitive sentence structures and easy-to-read sight words designed to inspire a sense of mastery and confidence. Includes ten, 16-page books, 86 stickers, parent letter, and achievement certificate.

my daughter was so so excited about these books. but the point of them is that beginning readers are practicing their reading skills. to me, this means that the books should have a LOT of sight words, as well as words that sound the way they are spelt. in these books there are a LOT of words that are just plain not gonna work for a beginning reader to sound out correctly. chef, and musician and bouquet are not words that little kids can sensibly sound out. so as much as my daughter loves the pictures, I end up reading the majority of the books, which sort of defeats the purpose.

My daughter loves Princesses and she enjoys these books. They are short, so I read two or three a

night to her as bedtime stories. I'm disappointed with them, however, because I wanted books that would help her learn to read. These are more frustrating than helpful because they contain numerous words that are difficult to pronounce for an early reader, such as "chef", "feast", and "Jacques". It seems like every page contains at least one word that is impossible to sound out. My daughter became very frustrated, which squelched her early reading enthusiasm. If you're just looking for nice bedtime stories with lovely Princess artwork, these are great. If you're hoping to teach your child to read, you may want to consider a different set of books.

We just got this the other day and my little girl loves it. She is in kindergarten and is learning to read. Each page has plenty of sight words and maybe one or two words you either sound out or you learn by memorization or using the picture like bouquet. It is just enough of a challenge for her without being too hard to make her get discouraged. The baby is in my lap trying to type so I am sorry about my typing lol. Of course the stories are cute too. They might be a little advanced for someone just starting to read, pre readers would be better to start with like the Biscuit phonics fun boxed set, that is what we started her on. Take care everyone.

We got these for my daughter to go in her Easter basket. Honestly, I was a little disappointed in the quality of these books. I have time complaining for what I paid for them..but they are sewn booklets with very few words per page. I may have just had something else in mind when I ordered them. My 4 year old still enjoyed reading them with me and she didn't notice at all. I just don't see them lasting a very long time. Overall I wouldn't buy them again, but they may be okay if you go into the purchase knowing how simple they are.

I was expecting each book to be around the same length and quality of one of the "I Can Read" level 1 books. We have a ton of those, and I highly recommend them. These were more like thin little pamphlets than actual books. They remind me of something you might get in a kids' meal at a fast food restaurant. They seem really cheap. Not worth the price to me.

Bought this for my 5 yr old grand daughter and she loves the books. Everytime she comes over she wants to read them. It makes her feel grown up I guess. She sounds out the letters and tries to form the words which is a great start to reading. The words are large and not many on each page - which is really nice.

These books are very cute. Great for any Kindergartner or 1st grader learning how to read. 10 great little short story books. Different variety of Disney stories. Comes in a cute box where the lid velcros and has a little handle for the kid to carry around. You get some stickers and a cute little certificate for an adult to fill out.

The books offer good repetition of words and sentences between pages. My 4 year old breezed through them and was motivated to read them because each book has a Disney princess. I suppose I was expecting the books to be a little more challenging for a level 1 but we found them too easy. Great price though!
