Algebra, Grades 6-9

Synopsis

Help students in grades 6–9 master the skills necessary to succeed in algebra using Algebra. This 128-page book allows for differentiated instruction so that each student can learn at his or her own pace. It is perfect for extra practice at home or school and includes more than 100 pages of exciting activities! The activities cover skills such as operations with real numbers, variables and equations, factoring, rational expressions, ratios and proportions, graphing, and radicals. The book includes 96 durable flash cards and an award certificate.

Grade Level: 6 - 9

Customer Reviews

I couldn't find any books in Barnes & Noble with more than a few practice problems. That's what the students I tutor need - lots of repetition. This series by this publisher is the best!!

This was really value buy.Excellent condition and would encourage buyers to really buy from .comReally helps child to do the practice and would like to see many such available for different grades

It is a good book but there is some material that needs to be explained and extra effort has to be placed to complete the problems.
