Time For Kids: Henry Ford (Time For Kids Biographies)

Synopsis

As a young boy, Henry Ford was fascinated by technology and how objects worked. His childhood interests led him to leave the Ford family farm in Michigan in search of a career with machinery, and the rest is automotive and economic history. TIME For Kids® Biographies help make a connection between the lives of past heroes and the events of today. Henry Ford made cars affordable, turning them into the primary means of travel for Americans. His innovations, including the assembly line, are still benefiting us today.

Book Information

Lexile Measure: 860L (What's this?)

Series: Time for Kids Biographies

Paperback: 48 pages

Publisher: HarperCollins (April 29, 2008)

Language: English

ISBN-10: 0060576308

ISBN-13: 978-0060576301

Product Dimensions: 6 x 9 inches

Shipping Weight: 3.2 ounces (View shipping rates and policies)

Average Customer Review: 4.9 out of 5 starsÂ See all reviewsÂ (18 customer reviews)

Best Sellers Rank: #82,807 in Books (See Top 100 in Books) #40 inÂ Books > Children's Books > Education & Reference > Money & Saving #195 inÂ Books > Children's Books > Biographies > Historical #653 inÂ Books > Children's Books > Education & Reference > History

Age Range: 6 - 10 years

Grade Level: 2 - 4

Customer Reviews

This is one in a series of inexpensive but superbly produced biographies created for younger readers (ages 7-9) that enable them to gain a much better understanding and appreciation of key figures throughout U.S. history, most of whom also had significant impact worldwide. That is certainly true of Henry Ford (July 30, 1863 - April 7, 1947) whose "light, low-priced car with an up-to-date engine of ample horsepower, and built of the very best material [would eventually] put the world on wheels." Moreover, the Ford Motor Company shocked the business world when it announced (on January 5, 1914) that it would increase the wage of its workers to five dollars a day (almost twice what his and other auto companies had been paying) while reducing the work day

from nine hours to eight. According to Ford, "The five dollar day was the greatest cost-cutting move I ever made" as company doubled its profits from \$30-million in 1914 to \$60-million two years later. How important is Henry Ford? It is difficult to think of another business leader who had a greater impact on his nation's economy, indeed on the societies and economies of other nations throughout the Americas, the UK, Europe, and Asia in which the dream of possessing an affordable automobile became a reality. Young people need to understand how Ford helped to develop "a car for everyone," the subject of Chapter 5. They also need to understand how Ford's contributions helped to create "a new middle class," the subject of Chapter 6. These and other subjects (e.g. the development of an interstate highway system as well as the transition from an agricultural economy to an industrial economy and the consequent population shifts that substantially increased the population of metropolitan areas) are all worthy of additional study.
