Customer Reviews

I have two toddlers who love Sofia the First. Most of the books we have found are longer with more text and not board books, so they are easily destroyed. These books are short and hold their attention well and are durable board books. The text is more about life lessons and not as much a narrative story. This worked well for us, but might not work as well if you are looking for a retelling of an episode of Sofia the First. The price for four books is pretty good too. This was a great addition to our collection.

Christmas gift for a nephew. Yes, a nephew that randomly requested "princess stuff". So, instead of freaking out and getting him a GI-Joe, we obliged and got him "princess stuff". He'll open it on xmas and hopefully get some use out of it.

My daughter who is almost 2 yrs old loved it. Beautiful illustrations and simple to read and understand. We try to use them daily before she gets bored with them.

My daughter squeed when she got this sweet book set as an advanced copy. She's been carrying around her box of princess books ever since and asks to read each of the cute stories--about every five minutes ;)

My almost 2 year old daughter got these for Christmas. She loves them!! We read them at least twice every single day by her request.

My daughter is 7 months and she loves these books! Great quality and fast service.

Books were shorter than I expected. Only one to two lines per page.

Sofia the First Sofia's Princess Adventures:...is A Christmas gift.
