I'll be honest. I've never heard of this team in all of the M.U. It wasn't until recently when I was reading an article on line for the M.C.U that said that this bunch would be a possible show. So with christmas money to spend i bought the first two volumes of the complete collection to see what was up with them. Partially out of 'research' and partially out of curiosity. I have been wanting to read something fresh and new besides the standard marvel work that i've been reading recently, rather than complex and epic i've been wanting something more simple and small scaled. Runaways is the literal s#!t, as one of the team members would say. It is definitely one of the best series i've ever found. The story is simple, evil parents having their children rebel and become heroes. Where Runaways shines is the chemistry between each character. By the end of the first volume you'll be dying to get your hands on book 2, as well as the rest that are coming out next year. At some points

the series reminded me of the older seasons of power rangers in a way. Teenagers with attitude being granted the powers and chances to do the right thing. Its like older power rangers if they were written in a way that explored each character and the relationships they have with one another in this war for balance between good and evil. If i could have one gripe though, the big twist in the end is the only thing I felt was done in just the most laziest ways. It's just that the moment wasn't as epic as it should have been due to the fact that it really is the ONLY possible outcome from all the little hints that were so big you could have practically had them wear a neon sign that read "I WILL BETRAY YOU ALL" and no one would notice. But besides that.
