New Bible Dictionary

Synopsis

The New Bible Dictionary is a reference work ideally suited for people of all ages and backgrounds. This magnificent and comprehensive Bible dictionary has set the standard for evangelical Bible dictionaries for five decades. Now in its third, updated edition, it is the clear leader in its field. The third edition is an important step forward in bringing this classic work up to date with the latest developments in biblical studies, ancient Near Eastern studies and archaeological finds. One hundred of the most important articles have been revised and rewritten. All of the bibliographies have been revised, taking into account the vast increase in publications since the second edition was released. The third edition of the New Bible Dictionary will increase the reader's knowledge and understanding of God's Word as no other single book can do. It is an invaluable reference book for schools and colleges, theological and Bible college students, ministers and laypeople, teachers and professional scholars--everyone who wants to know and understand the Bible better.

Customer Reviews

The New Bible Dictionary is more like an encyclopaedia than simply a dictionary. The scholarship is first-rate and the book is an almost essential resource for those who are conducting more in-depth study of the Bible. It contains a number of articles from a range of good Christian scholars on pretty much every person, place, book and other thing in the Bible. For example, when discussing a book of the Bible, the article would contain information about the author, the date of writing, some of the scholarly issues concerning that book and would give a broad overview of the purpose and theology of the book. This book is an invaluable resource for both lay person and Ministers, and would be

useful to anyone who is involved in writing Bible studies or talks on the Bible, or who is undertaking formal study of the Bible or who is simply serious about examining more closely what the Bible really says. If you fit one of these categories, you should definitely buy this book.

The New Bible Dictionary first appeared in 1962. It is one of many great books that was written, to a large degree, in Tyndale House, Cambridge. It has been updated several times to include new discoveries and to improve the already terrific original dictionary. The scholars who wrote the articles are some of the best-known, most-respected evangelical scholars today. Highly recommended. If you would like this book and 17 other helpful books, including the Dictionary of Biblical Imagery, Sinclair Ferguson's New Dictionary of Theology, the New Bible Dictionary and the New Dictionary of Biblical Theology, also the Essential IVP Reference Collection CD ROM.

This book was a gift from a friend about a year ago. I use it all the time when reading the Bible and doing studies with friends. It has all the information you could ever want. Some very obscure topics are left untouched, but all of the major and minor topics are dealt with. It also includes maps, pictures, etc. Well worth the money.

The reviewer giving the dictionary 1 star, because it omitted terms like Calvinism, was I believe looking for a theological dictionary which this is not. The terms he cited as missing would be found in other dictionaries, not a Bible dictionary. So as a Bible dictionary which is what it is titled it is very good.

Very good Bible dictionary. Have others and always looking to learn something new about a Bible word. Bible dictionaries have a lot of the same words but not all have the same information. Each one is different and unique in itself. Would recommend the New Bible Dictionary to anyone who is a student, no matter what your age. Like other Bible dictionaries, there are many scholars who contribute so there is always the advantage and privilege of learning something from a different perspective.

I am very pleased with the New Bible Dictionary I purchased recently. I teach an adult Sunday School class which requires a lot of preparation and in-depth study. My pastor suggested this book as a reliable resource that he uses to prepare his sermons. He lent me his copy so I could decide if it would fit my needs. It appears to have even more help and information than I could have hoped

for. The pastor gave me great advice when he recommended that I should order this book!

I've used this text, as well as The New Bible Commentary, for two decades teaching Sunday School. I have many reference texts to help preparing my lessons, but if I had to choose only one to have this one would be it. It's authoritative without being written in excessively stilted language. I have gifted it to visiting missionaries to help in their teaching, both for its quality and because the single volume can be carried in their return luggage. In my experience it's the best authoritative, single volume Biblical reference book on the market.

The New Bible Dictionary is a great tool for any person trying to do entry level hermeneutics. It isn't terribly in-depth, but it provides a lot of great information. It is no doubt one of the first resources to start with in order to get a base of knowledge!
