Customer Reviews

This is a must buy. Reminds me of Gibson's most recent novel The Peripheral. I hope they extend this series.

Great sci fi. interesting story typical Gibson's post-Neuromancer aesthetic, but the Neuromancer heroes and neon light still shines here.

Can't wait for more. Just so pretty! All the tech seems reachable, near future. Haven't seen enough to comment on the story, but I'm certain it's top drawer.

Interesting series now that the story is beginning to reveal itself. Can't wait for the next issue.
