American Reset: A Post-Apocalyptic Tale Of America's Coming Financial Downfall (The Economic Collapse Chronicles Book 3)

Synopsis

After a complete failure of the global economic system, Matt and Karen Bair, a struggling middle-class couple, are forced to walk away from their South Florida home and everyone they know. The US dollar has become worthless leaving the country without a functioning currency. Police, fire, EMS and other government services grind to a standstill, stores are unable to resupply, and the criminal element goes unchecked. The broken US government, which created the upheaval, imposes a totalitarian solution upon the survivors of the mayhem. The crumbling empire clutches the remnants of power in its dying hand and the ultimate contest between liberty and tyranny reaches the apex. The lines of revolution are drawn and a vicious civil war ensues. The Bair family and their neighbors learn the true value of community as they rely on each other to survive the war and the ongoing effects of the financial meltdown. Will the collapse bring an oppressive regime that enslaves the American people, or will the patriots prevail and guide the country back to a place of freedom, peace and prosperity?

Mark Goodwin is a gifted writer who transports the reader directly into this realistic plot . A story line that is so realistic ,it could certainly be future history waiting to be recorded. The human emotion, condition, fear, pain, love, courage, faith, integrity, and patriotism, is clearly spelled out and felt in this third volume in the series. Any of the 3 books can be read, but as with any series, the reader will get the most of this great composition by reading them in order. If you are questioning big government, concerned about Federal debt, or have a loss of confidence in the direction of our government, you will appreciate this entire series. I really appreciate Mark Goodwins use, and combination of Bible scripture and our forefathers statements at the beginning of each chapter. As Americans, we need to be reminded of where we really came from. Those who forget history are doomed to repeat it.

I just couldn't wait for the third book! From the first book I really liked the down to earth way Mark talks about the fundamental economic problems facing America in a way anyone should understand. I've read other books with great information and a so-so storyline but Mark is great at both. His series prompted me to do more research and digging into our national state of affairs and its eye opening. Gift his books to anyone who questions preparedness. I love all the biblical references and quotes and especially love the clean story. I get tired of reading dystopian fiction that's all cuss words and adjectives about guns and the story is all fluff! That's not what you'll get in this book. In book three it picks up right where book two left off and starts off with some serious trouble for our favorite character and a great, realistic plot which totally sucked me in. I've been reading every spare minute I could. I could not put it down! So glad Mark wrapped up this series with a great ending.... But I will miss the Bair family. I can't wait to see what Mark writes next! Also check out his podcasts they are very informative and professional. A great resource for anyone who wants to get ready for whatever might come.

If you enjoy a prepper/stuff hitting the fan book and the Lord reigns supreme in your life, this book/series is most certainly for you. The author has made it abundantly clear, from the beginning, where he stands in his faith. On the other hand, if you are offended by God being placed at the helm, this series may not be for you. I was waiting for the third book to come out even before I finished the second one. Waiting was painful. I could not be more pleased with the final book. Good wholesome language, well edited, excellent continuity, and a story that will leave you praying to be with people like the characters in the book, when (not if) things fall apart. This caused me to stop and take a hard look at what we are facing. This series (and I have read ALL the books of this genre)

made the play by play of the Coalition and Federal Government very realistic and felt like it could become terrifyingly real. If you believe in this, as I do, this story makes the most sense. Quite frankly, I think things will pan out far worse but it is anybody's guess. I am so looking forward to the next series...like I said, waiting is painful!!!

First off, the author is a Christian. He takes his faith in Christ very seriously, so naturally it comes out through his writing. He starts off the acknowledgments with a verse from John, and thanks Jesus Christ for making him the person he is today. If Christianity offends or bothers you, go ahead and stop now and select something else. Otherwise, this is book three of his Economic Collapse Chronicles. The author takes present economic conditions, and takes them to their logical conclusion. Our nation's spending is unsustainable, and eventually it all has to collapse. Each chapter begins with either a quote from the Bible, or a quote from one of the Founding Fathers. I found that each quote somehow was tied into the story described in the chapter. What I liked about the series is the characters are not perfect. They don't have the \$250,000 retreat in the hills somewhere, and enough firepower to take Russia on singlehandedly. They are ordinary average people who make mistakes, and are forced to deal with a world that has gone sour very quickly. Since this is the final book in the series, he wraps up the storyline, and closes everything out. I appreciate that. I would have liked to continue to read further in this storyline, but at least we get some closure. As a bonus, my home of Oklahoma makes an appearance in the story! As most prepper fiction seems to take place in either Florida, Texas or Idaho, it's fun to see Oklahoma make the storyline. Overall I enjoyed the series, and I appreciated the storyline from a Christian, Constitutional viewpoint.

just finished the book after starting earlier today. all three novels have been engaging interesting and timely. each book continuing the story in a nearly seamless fashion. poignant quotes from the founders and the Bible scriptures cited were on point for me. nice blend of story and tech info in a believable way.
