Customer Reviews

My family loves to travel. We hit the road about twice a year and we are planning our spring vacation trip. When I saw the eBook Must See Places Of The World, I figured it would be a great resource to assist us in our planning. This was my first Kindle eBook and I was disappointed I could not read this on my Apple MacBook Pro but I was informed that this item is not compatible with my device. So I downloaded Kindle for Android for my Samsung Galaxy Note 5. Once the app downloaded and installed, I was ready to roll... As others have mentioned, the pictures are GORGEOUS! I do wish there were more photos for each must see place. In addition, the places recommended are great. While most were not surprises or revelations, they definitely gave us some

great ideas and brought some locals to the top of mind. I will admit we never considered going to Iceland or Turkey, but we will definitely consider them for our next trip. It's funny that Arizona is something we were talking about going to in March and China is near the top of the list for our international trip. As for cons, I must definitely say that the text is not easy to read.
