Customer Reviews

Reggie defends himself from the bum rap he received from the swarms of liberally-biased media, militant gay activists, and corporate sponsors, after he delivered a truthful speech about the moral decline of our nation to the Wisconsin state legislature. In the face of great backlash, hate mail, and death threats, he defends his beliefs on sin, true faith, obedience, sexuality, race relations, greed, drugs, godly parenting, and more. I even forgive him for extolling Oprah's virtues because he was dead before she hired her new-age, satanic guru to spread her cultist ideas. He wouldn't care for her brand of "faith". It's sad that the "minister of defense" is gone. We need more voices like his. This book is a bargain not only because it's older, but because many people don't want to hear the truth.
